13 JUN 1956

**\*ARMY Declass/Release Instructions On File\***

MEMORANDUM FOR: Director, Central Intelligence  
Deputy Director (Intelligence)  
Deputy Director (Plans)  
Deputy Director (Support) ✓

SUBJECT : Communications Anti-jamming Training Exercise

REFERENCE : OC-5830, dated 6 January 1956, TOP SECRET Control  
Number 178519

1. This memorandum is to inform you that the Department of the Army will conduct a radio anti-jamming training exercise in the Pacific and Far East areas during the period 4:00 A.M., E.D.T., June 27, 1956 through 4:00 P.M., E.D.T., June 28, 1956.

2. Electrical communications which are assigned deferred, routine, and priority precedences are expected to be delayed even though alternate routes of communication not affected by the jamming will be available for traffic. It is recommended, however, that operational immediate precedence be assigned to those cables which require prompt action and which must not be delayed. Agency overseas activities which may be affected have also been notified and advised to upgrade precedence accordingly.

3. To preserve the element of surprise and realism, the Army Signal Corps has requested that the number of persons informed of the exercise be kept to a minimum. In compliance with their request, and in view of the action recommended in the above paragraph, it is further recommended that distribution of this information be limited to "CIA Internal Use Only."

Director of Communications
